DETAILED ACTION

Claims 1-8 are pending in the instant application.

Continued Prosecution Application

The request filed on January 31, 2002 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/441,411 is acceptable and a CPA has been established. An action on the CPA follows.

No new arguments have been submitted. No amendments have been made.

The following rejections are reiterated and constitute the complete set of rejections being applied to the instant application.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-8 stand rejected under 35 U.S.C. 112, first paragraph, for reasons of record advanced on pages 3-8 of the Office Action of Paper No. 5 (mailed 4/12/00) and on pages 2-6 of the Office Action of Paper No. 10 (mailed 1/4/01), because the specification, while being enabling for a vaccine for eliciting or enhancing the titer of antibodies for Her2/neu protein, wherein the vaccine comprises individual expression constructs which each recombinantly express Her2/neu, murine B7.2 or murine 4-1Bb ligand, does not reasonably provide enablement for any vaccine for eliciting or enhancing the titer of antibodies

Art Unit: 1632

for any cell surface receptor antigen, wherein the vaccine comprises one or more recombinant expression constructs which express (either as individual expression vectors, a single expression vector, or a combination thereof), any cell surface receptor antigen plus two immune response altering molecules, consisting of any accessory cell agent and any T cell agent. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims.

Conclusion

No claim is allowable.

All claims are drawn to the same invention claimed in the parent application prior to the filing of this Continued Prosecution Application under 37 CFR 1.53(d) and could have been finally rejected on the grounds and art of record in the next Office action. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing under 37 CFR 1.53(d). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
